NEEDS ASSESSMENT

This program is designed for physicians, nurse practitioners, physician assistants and nurses who provide medical care, advice or counseling to women. It deals with practical information that may be used in everyday practice, focusing on “how to do what works best”. This year we will have an interesting mixture of obstetrical and gynecological topics that feature experts from both institutions.

We are pleased to include expert faculty who will offer talks and small group discussions. The planned topics for this year’s conference include: medical complications of pregnancy, genetics, endometriosis, uterine fibroids, infectious diseases, hormone replacement therapy, cervical neoplasia and contraception. A “Meet the Faculty” Reception is scheduled for Wednesday evening. We will also hold daily “Meet the Professor” case presentations.

Resting at the base of Squaw Valley USA, site of the 1960 Winter Olympics and minutes from crystal-clear Lake Tahoe, the Resort at Squaw Creek offers four-diamond luxury in an idyllic mountain setting. Its 403 elegant guest rooms, gracious hospitality and full-service amenities have been recognized by Conde´ Nast Traveler magazine as ranking among the top 50 best resorts in North America. This will be a fabulous venue for our first annual joint OB/GYN conference. The schedule runs from Wednesday through Sunday to minimize time away from the office.

EDUCATIONAL OBJECTIVES

At the end of the program, participants will be able to:
· Discuss the maternal and fetal risks associated with operative delivery
· Describe the options and limitations of emergency contraception
· List the indications and contraindications for radical trachelectomy
· Explain the connection between migraine headaches and oral contraceptives
· Discuss the role of HPV testing in the current management of cervical dysplasia
· Recognize the fertility consequences of chlamydial infections
· Evaluate hemoglobinopathies during pregnancy

As a benchmark resort, Squaw Creek provides the balance of “Living, Learning and Leisure™.” The Resort at Squaw Creek’s exclusive on-site triple chairlift gives you ski-in/ski-out access to more than 4,300 acres of world-class terrain at Squaw Valley USA (the site of the 1960 winter Olympics). Known for its deep snow (450 inches per year, on average), extensive network of 33 chairlifts and areas for all ages and abilities, Squaw Valley is a must-visit destination for skiers from around the globe.

The Resort also offers activities such as: full spa, three-pool water garden, children’s programs and much more. Ride the cable car which climbs up to 2,000 vertical feet during its ten-minute ride to High Camp. As the cabin rises above the valley floor, extraordinary and unforgettable views of Lake Tahoe appear. At High Camp there is something for everyone, including an Olympic-size outdoor ice-skating rink, five tennis courts, spa, Olympic Museum and spectacular restaurants.

If you have any special needs due to a disability as specified in the Americans with Disabilities Act, please call the UCSF Office of Continuing Medical Education Office at (415) 476-5808 so we may make the necessary accommodations for you.
