TOPICS IN EMERGENCY MEDICINE

Hilton San Francisco Financial District
San Francisco, California

NEW FOR 2006!
- Optional Ultrasound Course!
- Optional LLSA Course!
- Meet the Expert Sessions!
- Interactive Question and Answer Sessions!

This CME Activity is self-supporting and receives no industry funding!
Topics in Emergency Medicine, now in its 35th year, is a practical review and update of emergency medicine for emergency physicians, family practitioners, internists, and pediatricians. The course covers a wide variety of adult and pediatric emergencies seen in emergency departments, urgent care and office settings. Cardiac, infectious disease, neurologic and ophthalmic emergencies are covered, as well as trauma, orthopedics, pulmonary, dermatologic and gynecologic problems. Lectures and workshops are taught by both emergency medicine physicians and specialists, and by specialists in a variety of disciplines with the emphasis on initial evaluation, treatment and indications for consultation and referral. We are proud to offer this year’s course free of industry sponsorship.

Topics in Emergency Medicine is presented by the Department of Medicine, Division of Emergency Medicine and is sponsored by the Office of Continuing Medical Education, University of California San Francisco School of Medicine.

EDUCATIONAL OBJECTIVES
Upon completion of this program participants should be able to:

1. Understand the latest methods for evaluation and treatment of a wide variety of emergency problems;
2. List the techniques and medications for assessment and reduction of acute pain;
3. Identify advances in the field of emergency medicine that can improve outcomes.

ACCREDITATION
The University of California, San Francisco School of Medicine is accredited by the Accreditation Council for (UCSF) Continuing Medical Education to provide continuing medical education for physicians. UCSF designates this educational activity for a maximum of 26.50 AMA PRA Category 1 Credit(s). Physicians should only claim credit commensurate with the extent of their participation in the activity.

This CME activity meets the requirements under California Assembly Bill 1195, continuing education and cultural and linguistic competency.

Pain Management and End-of-Life Care: The approved credits shown above include 5.5 credits toward meeting the requirement under California Assembly Bill 487, Pain Management and End-of-Life Care. Approved by the American College of Emergency Physicians for 26 hours of ACEP category 1 credit. Application for CME credit has been filed with the American Academy of Family Physicians (AAFP). Determination of credit is pending.

This program is approved by the American Osteopathic Association (AOA) for 26 hours, category 2A CME credit.

Physician Assistants: The American Academy of Physician Assistants (AAPA) accepts category 1 credit issued from AOACME, Prescribed credit from AAFP, and AMA PRA Category 1 Credit™ for the PRA for organizations accredited by the ACCME.
Monday, November 6, 2006

7:00 am  Registration and Continental Breakfast
8:00 The Emergent Eye in the Acute Setting  Todd Margolis, MD, PhD
BACK BY POPULAR DEMAND! A complete and practical review of the assessment and management of eye emergencies, from minor to vision-threatening.
9:00 Critical ENT  Andrew Murr, MD
What are the latest advances in management of acute, critical ENT issues? Our lecturer will fill you in on the recent evidence and clinical developments.
10:00 Break
10:15 Plastic Surgery Pearls for the Acute Care Setting  David W. Kim, MD
Understand the principles of wound healing, and maximize results in treating traumatic wounds.
11:15-12:15pm Pediatric Dermatology  Amy Gilliam, MD
Skin conditions in children can represent the most benign illness to harbingers of critical conditions. Learn clues to differentiate the serious from the life-threatening illness.
12:30-1:30 HOSTED LUNCHEON  •  Medical Jeopardy  Charles Goldberg, MD and Jeffrey Hong, MD
This dynamic duo will entertain you and challenge your knowledge as you team up with your fellow course participants.
1:30 Low-Risk Chest Pain  Nora Goldschlager, MD
Non-cardiac chest pain causes the majority of all chest pain visits to the ED. But when should you worry? How can the myriad of non-invasive tests influence your decisions? Our cardiologist will give you guidelines on who should stay and who should go.
3:00-3:15 Break
3:15 New Cardiac Drugs  Eric R. Snoey, MD
Get up to speed on the ABCs of the latest medications touted for cardiac abnormalities that present to your Emergency Department.
4:00-5:00 Updates in COPD/Asthma  Stephen C. Lazarus, MD
Does the SOB in your code room leave you breathless? Learn the newest and best management strategies to treat acutely ill patients—and keep them from coming back.
Tuesday, November 7, 2006

7:00am Continental Breakfast
8:00 The Essentials of the Hand Examination  Leonard Gordon, MD
ONE OF OUR MOST POPULAR LECTURES: A hand surgeon takes you through the anatomy of the hand and the evaluation and management of hand injuries.
9:00 Catastrophic Errors in the Chest and Abdomen  Steven K. Polevoi, MD and Martin Kernberg, MD
The differential diagnosis of abdominal and chest pain covers a broad spectrum of disease. Emphasizing advances in radiographic imaging; learn how to distinguish the benign from the lethal.
10:00- Break
10:15 TIA – Updates and Management  S. Claiborne Johnston, MD, PhD
It's clearly a TIA, but the patient now has a normal neuro exam. What should you do? Learn about the emerging information on management of TIA's.
11:15 The Approach to the Altered Patient  Barry C. Simon, MD
To diagnose a patient with AMS you have to cast a wide net. Streamline your workup to get the diagnosis quickly.
12:15-1:45pm Lunch on your own
"MEET THE EXPERT" SESSIONS • Participants pick 3 of 4 to attend
Unanswered questions about specific topics burning in your mind? While at the conference, participants will pick the brains of our experts in small, moderated group Q&A sessions.
1:45-2:45 a. Cardiology  Jonathan Zaroff, MD  Moderator - Flavia Nobay, MD
b. Nephrology  Glenn Cherтов, MD, MPH  Moderator - Christopher Fee, MD
c. Orthopaedic Surgery  Sigurd Berven, MD  Moderator - Michael Callaham, MD
d. Infectious Diseases  Lisa Winston, MD  Moderator - Ellen J. Weber, MD
2:45-3:45 Sessions repeat
3:45 Break
4:00-5:00 Sessions repeat

Wednesday, November 8, 2006

7:00am Continental Breakfast
8:00 The Acute Abdomen in the Pregnant Patient  Hobart W. Harris, MD
The acute abdomen presents a doubly daunting differential in pregnancy. How should you approach these patients and what are the common pitfalls?
9:00 Flank Pain  Flavia Nobay, MD
Are you sure it is a kidney stone? Discover clues to differentiate the benign presentations of flank pain from catastrophic ones.
10:00 Break
10:15 Dental Emergencies  Adel Tawfiliis, DDS, OMFS
Facial fractures and dental trauma often perplex the emergency and urgent care physician. Learn about recognition and management, including dental blocks and important anesthesia and closure techniques, for facial lacerations.
11:15 The Approach to the C-Spine and Spinal Cord Injury  William Whetstone, MD
Evaluation and treatment of spinal cord and vertebral column injury from head to toe.
12:15-1:30 Lunch on Your Own
THURSDAY, NOVEMBER 9, 2006

7:00am Continental Breakfast
8:00 P Conscious Sedation in Pediatric Patients Claire Brett, MD
9:00 Pediatric Updates, part 1 Andrea K. Marmor, MD
10:00 Break
10:15-11:15 Pediatric Updates part 2 (continued from above) Andrea K. Marmor, MD
11:15 Emergency Department Crowding Ellen J. Weber, MD
12:15pm End of Conference

1:15-5:15 Lifelong Learning Standard Achievement (LLSA) Review Workshop • Additional $200 charge to attend (must sign up in advance)

THURSDAY, NOVEMBER 9, 2006

1:00pm Registration
1:30 Introduction to Ultrasound Ralph Wang, MD
2:15 Pelvic Ultrasound John Stein, MD
A brief review of pelvic anatomy and scanning techniques followed by a presentation of the ultrasonographic approach to first trimester bleeding.
3:15 Vascular Access Ralph Wang, MD
Ultrasound guidance for central venous access and other novel methods of venous access will be discussed.
4:00 Break
4:15 Hands-on Scanning of pelvic and vascular access models. Normal and positive models will be present, and instructors will lead participants in actual scanning.
5:00pm Adjourn

FRIDAY, NOVEMBER 10, 2006

8:00am FAST Otto Lieberman, MD
The FAST exam for trauma will be presented, including a review of the literature and approach to trauma patient.
9:00 Galbladder Ralph Wang, MD
Ultrasongographic evaluation of the right upper quadrant and the renal system of the will be discussed, focusing on the gallbladder and kidneys. Cases of cholelithiasis, cholecystitis, cholecodolithiasis, and nephrolithiasis will be highlighted.
10:15 Break
10:30 Echocardiography David H. Adler, MD, MPH
A brief review of imaging techniques of the heart will be followed by a discussion of peri-cardial effusion, cardiac activity.
11:15 Aorta & DVT US Christopher Fee, MD
Important US vascular applications include the examination of the aorta exam. Pathologic states (AAA) will be presented.
12:00pm Lunch on your own
1:15 Video Review: Session 2
A series of ultrasound scans will be presented. Positive scans and normal anatomy will comment- ed on, as well as review of abnormal findings.
2:00 Hands-on Scanning of the abdomen, heart, and great vessels. Normal and positive models will be present, and instructors will lead participants in actual scanning. Exam technique will be taught, and normal exams will be compared to positive exams.
4:00 Ultrasound Mini-fellowship adjourns.
