Recent Advances in Neurology

This meeting is designed for the practicing neurologist and provides a review of clinical neurology, with emphasis on areas of recent neurological advances and progress in patient management. Both current concepts and new advances in neurologic disorders will be covered.

EDUCATIONAL OBJECTIVES

The purpose of this course is to increase competence and improve clinician practice in neurology. Specifically to:

- Increase knowledge of new concepts in dementing diseases, migraine, multiple sclerosis, Huntington’s disease, transient ischemic attacks, and prion diseases;
- Improve diagnosis and management of stroke and alterations in intracranial pressure.
