Algorithms for the assessment, diagnosis, and management of pediatric spine conditions

Melissa Esparza, MS4
Mohammad Diab, MD
May 11, 2013

Disclosures
- Agile Diagnosis: consultants
Case

- 12 year old girl with **back pain**

https://beta.agilediagnosis.com/app#back_pain/51829ea5b1898785f000004/50e7403bde05600031b
Conclusion

- Algorithms are a valuable tool in clinical medicine and medical education

- Next steps:
  - Algorithms for other orthopaedic conditions
  - Other uses
    - Patient-centered algorithms
    - Triaging patients
