Assistant Professor
Internal Medicine and Pediatrics
Division of Hospital Medicine

Bradley Monash, MD
Assistant Professor;
Associate Chief of Medical Service
Internal Medicine and Pediatrics
Division of Hospital Medicine
This innovative 3-day course focuses on hands-on skills building for physicians and allied health professionals who are actively engaged in the care of acutely ill, hospitalized children. Using a patient centered approach, course participants will spend the majority of the time in small group settings, each led by experienced UCSF faculty. In addition, each participant will be taught, directly observed, and given feedback using UCSF’s state-of-the-art simulation center. The course enrollment is limited to facilitate close interactions with UCSF Pediatric Hospital Medicine faculty.

TARGET AUDIENCE
Designed for early career hospitalists, fellows, and senior residents whose clinical focus is the care of the hospitalized child.

The purpose of this course is to increase competence and improve clinical practice in pediatric hospital medicine. We specifically anticipate improvements in skills and strategies to:

• Implement a plan of care apply key clinical advances in the field of pediatric hospital medicine such as advances for the care of the child with UTI, pneumonia, and seizures;

• Interpret signs and symptoms of clinical deterioration such as status asthmaticus/epilepticus and develop team-based management strategies to stabilize the child during these urgent clinical situations utilizing simulations;

• Manage acute and chronic pain in the hospitalized child;

• Improve key procedural skills during the care of the hospitalized child such as umbilical line placement, sedation, and intraosseous access;

• Examine the role of everyday communication in the hospital setting and practicing strategies to improve performance with difficult situations during family centered rounds and end of life discussions.

CONFERENCE LOCATION
Enjoy San Francisco’s renowned attractions such as the historic cable cars, shopping in Union Square, or visit San Francisco’s culinary hub at the Ferry Building.

This course will take place at the Kanbar Simulation Center, located on the University of California San Francisco, Parnassus Campus. The Kanbar Simulation Center supports UCSF’s educational mission of teaching, learning, and assessment through simulation recreating routine and complex situations, thereby improving patient care and safety. Our learning activities cover the entire spectrum of patient care, from practice of history taking and physical examination to interprofessional team training and procedural skills practice.

They offer expertise and consultation in the use of standardized patients, high-fidelity simulators, and curriculum design including scenario development for simulation activities.

For overnight accommodation information, please visit the course webpage at www.cme.ucsf.edu
