Presented by the Department of Medicine, Division of Infectious Diseases, at the University of California, San Francisco School of Medicine, this course reviews clinically relevant topics in infectious diseases which are chosen because they are of interest to the practicing clinician or because there have been significant recent advances in diagnosis or treatment.

TARGET AUDIENCE
The course is designed to meet the needs of a variety of clinicians, including primary care physicians, family physicians, general practitioners, hospitalists, internists, nurse practitioners, pediatricians, clinical pharmacists, and other health professionals who are involved with infectious diseases in the inpatient or outpatient settings.

OBJECTIVES
Upon completion of the activity an attendee will be able to:

- Apply knowledge and principles to diagnose, manage, and treat common infections encountered in clinical practice such as skin and soft tissue infections, respiratory tract infections, urinary tract infections, gastrointestinal infections, endocarditis, staphylococcal infections, nosocomial infections, and infections of the central nervous systems;
- Identify and manage less common infections, such as Lyme disease, zoonoses, Clostridium difficile infections, infections in immunocompromised patients, and infections associated with travel;
- Recognize presentations of viral infections, including herpes viruses, Zika and other arboviruses, respiratory viruses, and to recommend tests for diagnosis of these infections;
- Incorporate into his/her practice use of newer vaccines and antimicrobial agents including an understanding of their efficacy and appropriate usage for prevention and treatment of bacterial, viral, and fungal infections;
- Recognize and treat the more common dermatologic manifestations of infectious diseases.

ACCREDITATION
The University of California, San Francisco School of Medicine (UCSF) is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.
