New for 2011!
The Society of Hospital Medicine
Practice Management Pre-Course
October 26, 2011
Hyatt Regency Embarcadero
San Francisco, CA
This course, chaired by Dr. Robert Wachter, covers the clinical issues most relevant to hospitalists and other healthcare professionals who care for inpatients. Taught by UCSF’s top teachers and a stellar group of guest faculty, the course highlights recent advances and current controversies. To promote active learning, the course uses a computerized audience response system, and features multiple workshops in a variety of disciplines to allow for small group discussions. The course includes broad content in critical care, perioperative care, patient safety, and hospital neurology, cardiology, nephrology, and infectious diseases.

Back by popular demand, this year’s conference is preceded by the three day Hospitalist Mini-College (October 24-26, 2011) as well as a one day practice management pre-course by the Society of Hospital Medicine (October 26, 2011).

This course is presented by the UCSF Division of Hospital Medicine and is sponsored by the Office of Continuing Medical Education, University of California, San Francisco School of Medicine. It also serves as the West Coast regional meeting of the Society of Hospital Medicine.

An attendee completing the **Management of the Hospitalized Patient** course should be able to:

- Describe the major diagnoses to be considered in common inpatient clinical presentations;
- Review a modern and evidence-based work-up for common inpatient clinical presentations;
- Apply modern therapeutic approaches to common inpatient disorders;
- List some of the latest literature impacting the field of Hospital Medicine and how best to use it to answer clinical questions.

An attendee completing the **Hospitalist Mini-College** pre-course should be able to:

- Improve diagnostic and management skills in critical care through hands-on teaching and observation;
- Improve diagnostic and management skills in hospital neurology through hands-on teaching and observation;
- Improve diagnostic and management skills in medical consultation and co-management through hands-on teaching and observation;
- Improve diagnostic and management skills in hospital dermatology through hands-on teaching and observation.

CONFERENCE LOCATIONS
The UCSF Mini-Hospitalist College is at the UCSF Medical Center, located at 505 Parnassus Avenue. The 600 bed academic medical center is ranked as the nation’s 7th best hospital by US News & World Report. Participants will go on rounds with course faculty and participate in a variety of other educational conferences.

The Management of the Hospitalized Patient Course and the SHM Pre-Course are both being held in San Francisco at the Hyatt Regency Embarcadero, the only Four-Diamond downtown San Francisco hotel situated right on the Embarcadero waterfront. Guests will enjoy immediate access to both the Financial District and the city’s most famous tourist attractions. You’ll find the historic Ferry Building on one side of this expansive hotel, the ferry to Alcatraz and the Bay on the other, and stunning views all around.

With so many options, you may choose to wander through Chinatown to Fisherman’s Wharf, shop in Union Square or board the cable cars for a riding tour of the city.

A block of guestrooms has been reserved at the Hyatt Regency Embarcadero at the group rate of $229 for single or double occupancy.

Reservations must be received by September 24, 2011 to guarantee availability of accommodations.

After this date, rooms will be provided on a space available basis only. If you phone in your reservation, you must identify yourself as a member of this course to receive the special rate.

SHM Pre-Course Option:
Taking Your Practice to the Next Level:
Management Strategies for Challenging Times

October 26, 2011 – 8:00am-5:00pm (MMH12005)

PROGRAM OVERVIEW

The world of hospital medicine is evolving rapidly, and so are your needs as a hospital medicine leader. Beyond the core principles of staffing, scheduling and compensation, you are increasingly facing a new set of challenges related to managing growth and complexity – including proactively addressing an ever-expanding scope of practice, ensuring that management and work flow systems are scalable as the practice grows, and engaging hospitalists around organizational goals. Building on the foundation of SHM's successful “Best Practices in Managing a Hospital Medicine” course, this brand new pre-course gives experienced hospital medicine leaders like you the tools you need to accelerate your program to a new level in today’s ever more challenging environment. Join SHM's expert faculty for a day dedicated to offering a variety of perspectives about how to meet many of your most perplexing challenges and equipping you with the practical information and tools you need to be positioned for success going forward.

OBJECTIVES

An attendee completing this pre-course should be able to:
• Design and implement tactics for improving workload distribution, patient flow, communication, and multi-disciplinary collaboration;
• Assess current trends in the hospitalist scope of practice and develop plans for proactively evolving the group’s scope of work in collaboration with other specialties;
• Enhance the group’s effectiveness through improved internal governance, robust practice support staff and systems, and strategies for fostering a ‘culture of ownership’.

The UCSF Hospitalist Mini-College
A Small Group, Hands-On Experience

This innovative 3 day pre-course, which precedes the flagship UCSF Management of the Hospitalized Patient course, provides an in-depth and engaging experience for hospitalists who seek clinical skill development. Participants will join faculty at UCSF Medical Center to participate in small-group learning in 4 domains: Critical Care Medicine, Hospital-based Neurology, Hospital-Based Dermatology, and Surgical Co-Management for the Hospitalist. Attendees will also receive hands-on procedural training (e.g., use of ultrasound guidance) and sessions focused on interpreting radiographic studies, building diagnostic acumen, and conducting a root-cause analysis.

Got paper?… Not

Beginning in 2006, we stopped distributing a printed syllabus for this course – doing so saves approximately 400,000 pieces of paper! Registrants will have access to all talks on a conference website pre- and post-conference, and will receive an outline onsite. Those interested in following along can bring their laptops (there will be electrical outlets in the main hall); we will also have printers for those who wish to print selected talks. We trust you understand.
