Developmental-Behavioral Pediatrics
The Floating Hospital for Children
Tufts Medical Center

Gregory J. Redding, MD
Pulmonary Medicine
Seattle Children’s Hospital
University of Washington

THURSDAY - SATURDAY
JUNE 5-7, 2014
The UCSF Benioff Children’s Hospital at the University of California, San Francisco invites you to attend the 47th Annual Advances & Controversies in Clinical Pediatrics, June 5-7, 2014 at The Westin San Francisco Market Street Hotel, 50 Third Street, San Francisco, California. The program endeavors to provide research, academic, and clinical information in a format that emphasizes the practical application of current concepts relevant to office practice and to professionals involved in the care of children. Pediatric, Family Practice and Emergency Room Physicians, as well as Physician Assistants, Nurses and Nurse Practitioners report that they consistently benefit from their participation in this program, where nationally recognized guest faculty present a series of lectures that are complemented by UCSF faculty and Bay Area experts speaking about a variety of other current or controversial pediatric issues, which will ultimately result in better care for children of all ages, infants through adolescents.

This year’s course focuses on pulmonary medicine, infectious diseases, and developmental - behavioral pediatrics, including ADHD and Autism.

OBJECTIVES
Upon completion of this conference, participants will be able to:

• Recognize and manage autism, ADHD, and eating disorders effectively;
• Effectively organize the disorganized child;
• Improve evaluation and management of asthma, chronic cough, bronchitis, chest wall disorders, snoring, and hearing loss;
• Implement strategies in practice for diagnosis and treatment of Kawasaki Disease, rabies, clostridium difficile, common bacterial infections, and emerging arboviruses;
• Discuss oral contraceptives with patients;
• Apply advances in pediatric hospitalist medicine to clinical decisions in practice;
• Prevent sudden death in athletes, and prevent and manage sports’ injuries;
• Utilize pre-participation athletic screening, cystic fibrosis screening, and children’s drawings & writings in developmental evaluations.
