Includes two half-day, hands-on workshops, for practitioners (March 10), and an expanded half-day family session (March 12) oriented to the needs of family and children with pulmonary hypertension.

Call for Abstracts: submit by February 15, 2016
9th International Conference
Neonatal & Childhood Pulmonary Vascular Disease
PARK CENTRAL HOTEL SAN FRANCISCO • SAN FRANCISCO, CA

OVERVIEW
Over the past decade, great strides have been made in our understanding of the pathobiology of pulmonary vascular disease, and from these findings new therapeutic options have emerged. It is increasingly clear that pulmonary vascular pathology is integral to a number of childhood disorders. In this symposium, we will bring together international experts to explore our current understanding of the basic pathobiology as well as new and future therapies for neonatal, pediatric, and adult pulmonary vascular diseases.

TARGET AUDIENCE
Pediatric and Adult Pulmonologists, Cardiology and Critical Care Physicians, Neonatology Physicians, and Advanced Practice Nurses.

COURSE DIRECTORS
Ian Adatia, MBChB  University of Alberta
Jeffrey Fineman, MD  UCSF Benioff Children’s Hospital

Includes two half-day, hands-on workshops, for practitioners (March 10), and an expanded half-day family session (March 12) oriented to the needs of family and children with pulmonary hypertension.
