Includes two half-day, hands-on workshops, for practitioners (March 9), and an expanded half-day family session (March 11) oriented to the needs of family and children with pulmonary hypertension.

Call for Abstracts: submit by February 15, 2017

10TH International Conference

Neonatal & Childhood Pulmonary Vascular Disease

Park Central Hotel San Francisco • San Francisco, California

OVERVIEW

Over the past decade, great strides have been made in our understanding of the pathobiology of pulmonary vascular disease, and from these findings new therapeutic options have emerged. It is increasingly clear that pulmonary vascular pathology is integral to a number of childhood disorders. In this symposium, we will bring together international experts to explore our current understanding of the basic pathobiology as well as new and future therapies for neonatal, pediatric, and adult pulmonary vascular diseases.

TARGET AUDIENCE

Pediatric and Adult Pulmonologists, Cardiology and Critical Care Physicians, Neonatology Physicians, and Advanced Practice Nurses.

COURSE DIRECTORS

Ian Adatia, MBChB University of Alberta

Jeffrey Fineman, MD UCSF Benioff Children's Hospital

Includes two half-day, hands-on workshops, for practitioners (March 9), and an expanded half-day family session (March 11) oriented to the needs of family and children with pulmonary hypertension.

FEES

\$595 Physicians

\$495 Allied Health Professionals
