NEW! OPTIONAL SESSION

March 5 - Full Day
Pulmonary Vein Stenosis (PVS)
Network Symposium

Optional Session Fee
Pre-registration required

Thursday - Saturday
March 5-7, 2020
OVERVIEW
Over the past decade, great strides have been made in our understanding of the pathobiology of pulmonary vascular disease, and from these findings new therapeutic options have emerged. It is increasingly clear that pulmonary vascular pathology is integral to a number of childhood disorders. In this symposium, we will bring together international experts to explore our current understanding of the basic pathobiology as well as new and future therapies for neonatal, pediatric, and adult pulmonary vascular diseases.

In addition to the general session on March 6 and 7, a pulmonary vein stenosis symposium will be offered on March 5 at an additional fee.

TARGET AUDIENCE
Pediatric and Adult Pulmonologists, Cardiology and Critical Care Physicians, Neonatology Physicians, and Advanced Practice Nurses.

COURSE DIRECTOR
Jeffrey Fineman, MD • UCSF Benioff Children’s Hospital
