54th ANNUAL

Recent Advances In Neurology

COURSE CHAIR
S. Andrew Josephson, MD
Carmen Castro Franceschi and Gladyne K. Mitchell Neurohospitalist Distinguished Professor and Chair, Department of Neurology

Wednesday - Friday

February 10-12, 2021

The Ritz-Carlton San Francisco • San Francisco, CA

LIVESTREAM COURSE
This meeting is designed for the practicing neurologist and provides a review of clinical neurology with emphasis on areas of recent advances and progress in patient management. Both current concepts and new advances in neurologic disorders will be covered.

EDUCATIONAL OBJECTIVES
Based on discussions with UCSF faculty and practicing physicians at other institutions, the topics were chosen based on physician-identified need for practice-based knowledge.

The purpose of this program is to increase attendee competence and improve clinical practice in neurology, specifically to:

• Apply new concepts to epilepsy, multiple sclerosis, aging and movement disorders in practice;
• Recognize and select headache, and dementia of stroke, and multiple sclerosis, headache, dementia, and apply best practices for their management.

GREENER MEETING
We’re saving paper! The syllabus will be available electronically one week prior to the course.

LIVESTREAM MEETING
Although we would have hoped and preferred to host our CME course in person this year as we have done in the past, we also understand that the pandemic has caused significant restriction to in-person educational events. The health and safety of our meeting attendees, faculty, staff, and those that provide infrastructure support at the meeting venue are of primary importance to us. The course will be live streamed for CME credit for registrants.

REFUNDS
Cancellations received in writing before February 9, 2021 will be refunded, less a $75 administrative fee. No refunds will be made on cancellations received after that date.

LIVE STREAM MEETING
This course will be offered as a live interactive virtual conference. Login instructions along with the digital syllabus will be shared with attendees a week before the meeting. Included in your registration fee is access to the course recordings on demand after the conference and for 30 days after the course.

Syllabus – The syllabus will be available electronically approximately 1 week prior to the course. If you do not receive an email with the link, you can also go directly to the course web page at cme.ucsf.edu and find the syllabus link the top of the page. and keep registration fees reasonable.

GREENER MEETING
We're saving paper! The syllabus will be available electronically one week prior to the course.
